

# The Connection

*Kennebec Telephone Co., Inc.*

Volume 6 Issue 2  
March 2011

## Manager's Moment-Matt Collins

Spring is approaching quickly and that means KTC construction will be busy digging in waterlines, setting tire tanks, and all the other projects that come along with nice weather. We realized that it's a little early, but now is a good time to call and get on the list to ensure your project gets done as soon as possible.

I would also like to take this opportunity to thank everyone that has been supporting Charley's Welding and Auto Repair with their business. It has been a learning experience for us, but all in all we think it's progressing nicely.

Stop in and check out the building if you haven't had a chance to yet. We'd be glad to give you a tour.

## It's time to Ditch the Hose!

Contact KTCI Construction to  
install or service your  
lawn irrigation system.

## Dates to Remember

**Daylight savings Ends.....March 13**

**St. Patrick's Day.....March 17**

**Spring Begins.....March 20**

## Have You Gone for a Spin Yet?

As many of you have already seen, Kennebec Telephone has purchased a 48 inch prize wheel. We thought spinning a wheel would be more fun when you win something than to just have something given to you. There are 24 slots on the wheel with a different prize in each, ranging from coffee mugs and sweatshirts to coats and free oil changes.

The wheel is also available for other groups to use for their events. It uses dry erase markers so the 24 slots can be easily changed to fit the group or event. Give us a call if you are interested in using it.

**Thank you for stopping by our booth at  
the Kennebec T&C  
Business Appreciation,  
and at the Presho Area Chamber  
Farm & Home Show !**

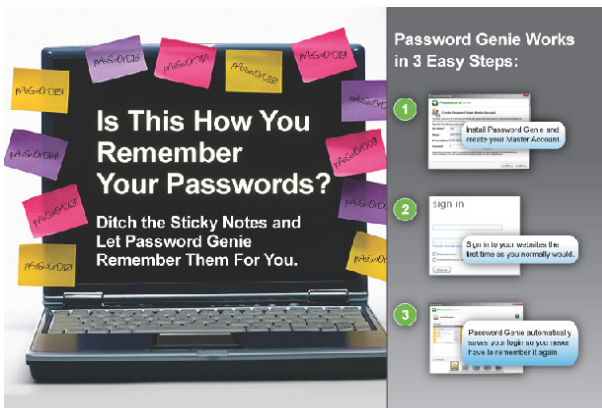

Kennebec Telephone Company's Annual Staff Party was held on January 29th at Hutch's Café in Presho. Along with the socializing and great food, awards were given out to Donna Bowar, Jason Urban, and Roger Beinlich for their years of service to the Company.

## Kennebec Telephone Weather Service

In an effort to provide everyone with current weather information, Kennebec Telephone has set up a couple local telephone numbers that provide the current date, time, temp, humidity, wind direction, and wind speed. These conditions are gathered from the National Weather Service sensors located on the tower north of Reliance. Simply dial 869-TEMP (869-8367) or 895-TEMP (895-8367) depending on your location, and a recording will provide the current weather information for your area.

**This does not take replace SafeTravel USA for road conditions. That information can still be accessed by dialing 511 and following the prompts for the area of the state or country that you are interested in.**

## FAQ'S

Q: How many people are currently working for Kennebec Telephone Company?

A: We currently have 37 full and part time employees. At this time, we are seeking another full time mechanic to work at Charley's Welding and Auto Repair. Call and talk to Matt or Rod for more info.

Q: I'm thinking of putting in a wireless router for my internet-do I get charged extra each month if I have one?

A: Routers may be purchased from us or through another outlet, but once purchased and installed, there is no additional charge for wireless service.

Q: What kind of things can I buy from your warehouse?

A: We keep a large inventory of plumbing, telephone, and electrical inventory in stock at the warehouse. We can also special order in construction supplies, , TV's, computers, and computer parts, ink cartridges, and so on. If there is something that you are looking for, and it's not readily available locally, stop in and ask us about it.
