

The Connection

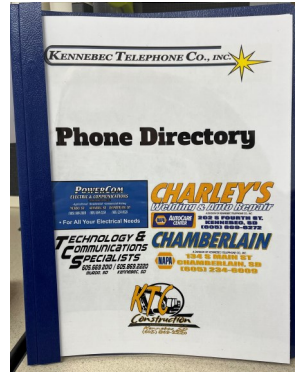

Kennebec Telephone Co.

Volume 19 Issue 2

February 2024

Phone Directory Update

We have recently updated our local phone directory. If you would like one, please stop by our office or call and we can send you one. You can also pick one up in the lobby of the Presho Post Office.

511 SD Road Conditions

South Dakota 511 provides up-to-date, location specific road restrictions, conditions, and weather information. You can access this information through dialing 5-1-1 from any cellular device or landline phone. With the winter season in full swing, take a moment to call before you hit the road!

STREAMING SERVICES

ENTERTAINMENT IN TODAY'S WORLD

In a world ruled by digital innovation, streaming services have emerged as the frontrunners in transforming how we consume our entertainment. Whether it be movies, music, or gaming, the streaming revolution has reshaped the landscape of our media experience, offering unprecedented access and convenience. Streaming services come in various forms, each catering to specific entertainment niches. Subscribers can access an extensive library of content without being bound by time or location. The ability to tailor content suggestions based on user preferences has elevated the streaming experience to new heights. As we look to the future, streaming services are poised for continued growth. The industry's evolution will likely be marked by further innovations, increased globalization, and a focus on sustainability. Our Warehouse carries Roku sticks which will give you access to the streaming services as long as you have a Wi-Fi connection. All you have to do is subscribe to the service you want and begin watching your favorite TV shows or movies! If you are interested in a Roku stick or how they work, give our office a call at 605-869-2220.

We asked Mike Kieffer, KTC Construction, what his favorite part of the Superbowl is and here's what he had to say:

TECHNOLOGY & COMMUNICATIONS SPECIALISTS
605.669.2010 / 605.869.2220
MURDO, SD KENNEBEC, SD

Calving season is upon us! If you are interested in learning more about having cameras installed in your barn to make for an easier calving season, give our guys with Technology and Communications Systems a call at 605-869-2220. If only one calf is saved, the camera system has paid for itself!

Telecommunication Fun Fact: The first Voice over Internet Protocol (VoIP) call was made in December 1974. Today VoIP is most commonly used in the online gaming community.

Our mission is to provide the highest quality telecommunications and information service to our customers at an affordable price. We will strive to offer prompt, friendly, and dependable service along with the latest technology to attain the highest possible customer satisfaction. If you would like more information or have questions about anything in this newsletter, feel free to contact us at 605-869-2220.
