Chamberlain NAPA Notes

from John Hloucha, Store Manager

The last 12 months have been crazy. As we try to get back to normal, it is time to look ahead. There's not much winter left and spring is right around the corner which is a great time to organize and start preparing for the upcoming season.

Here at NAPA we are having a Spring Filter sale! Take advantage of this special with up to 40% savings. Whether you are a repair shop, farming operation or have a fleet of trucks or equipment, we can fix you up with all your filter needs.

NAPA strives to provide great customer service. We are proud to announce our cus-

tomers representative, Tim Miller. He is on the road making deliveries, visiting with clients about our products and on-going sales and available to answer questions. Call on Tim for convenient repair shop or on farm deliveries.

Time seems to be going way too fast these days. We welcome the opportunity to work with any of you that are thinking about upcoming shop or farm needs. We can sit down and help put orders and quotes together or answer any questions you have to help save time, money and keep you rolling this spring. Start the savings by checking out NAPA's Spring Filter Sale!

Is this the year you add sprinklers to your yard?

Over the past years Kennebec Telephone Construction has put in quite a few sprinkler systems. These systems vary in sizes from 3 to 18 zones. With the convenience of not having to drag hoses to water your lawn and setting times for automatic water also comes the hassle of blowing out the system in the fall so the pipe does not freeze and break.

If we installed the sprinkler system then we will winterize your system in the fall and turn it on in the spring for the first year at no charge. After that you can sign up for our sprinkler maintenance program.

Here is how the program works. On or after April

15th, KTC will turn the water on to the sprinkler system, inspect the system for leaks, and check that the valves and sprinkler heads are working properly. If the sprinkler system needs repair or replacement parts are needed, then all labor and materials are covered by this agreement to bring the sprinkler system up to proper working order. On or after October 15th, KTC will winterize the sprinkler system. In the course of the year, if parts of the system fail or need repair, then the cost of labor, mileage, and materials are covered by this agreement to make necessary repair to the system.

Winterizing your system in the fall will save you time, money and the hassle of digging up your yard to repair broken water lines that froze over the winter. Blowing out your sprinkler system is the only sure way to know that there is no water remaining in the pipe.

If you are interested in this or would like more information call us at 869-2220.

NEW LOCAL PHONE DIRECTORIES ARE READY!

If you didn't pick up your new directory, please give us a call. We'd be happy to mail out a copy, or email a pdf file that you can download at home.

Do You have any questions?

We've all heard that "there's no such thing as a dumb question." And it's true! The only dumb question is the one that doesn't get asked!

Our staff at Kennebec Telephone Co. Inc. and all our divisions, look forward to hearing from you! Often times your questions may lead to an improvement in your service, saving you time, or even money. If you would ever like us to analyze your services to see if we can save you money, or better utilize the services available to you, give us a call.

We would be happy to visit with you over the phone and answer any questions you have about your phone service, internet service, electrical work, digging work, computer work, or anything else you have questions about. Just call us at 869-2220.
