Manager's Moment

Michelle Langenbau
Charley's Welding & Auto Repair

The Summer has come and gone and we have definitely seen our fair share of tire repairs or the need to purchase new ones. Some making it to the shop on their spare to others being stranded alongside the busy road, makes a person aware of just how important your tires are. We are all probably guilty (I know I am) that at some point and time of needing to be somewhere, we just jump in the vehicle and go! Yeah, sure, we all look at the gas gauge and make sure we have enough gas to get where we're going, but how often do we ever take the time to take a quick look at our tires? Are they needing air? How's the tread? Are they worn and it's just time for some new ones? Assuming that our tires are

good and are going to get us from point A to point B is not a given. My eyes were opened to that fact after a mother called in despair with her 4 young children sitting along I-90. So, with the winter creeping up on us and many families busy with sporting events, now is the perfect time to be checking on those tires! If your tires are looking as if they might need replacing, please feel free to give us a call with your tire size or stop in! We'd love to give you some tire options along with pricing and help make sure you get your precious cargo to your destination.

November 7**

Lyman Elementary students visit Kennebec Fire Hall for Fire Prevention Week

Firefighters from Kennebec, Presho, and Vivian hosted Lyman Elementary students, Pre-K through fifth grade during Fire Prevention Week. With all the elementary classes now in Kennebec, it was great to have representation from three communities.

The event features the firefighters demonstrating some of the equipment used in fighting all types of fires, from high-tech tools like infrared cameras used to find hot spots to rakes and fire swatters. The kids are quizzed on what to do if there is a fire in their homes, and they always have some interesting questions for the firefighters! Another highlight of the

presentation is seeing a firefighter in full turnout gear, including the respirator mask! This year Kennebec volunteer cadets Gunner Johnson and Easton Robbins were the "models" for this part of the demonstration. This year some of the students had the chance to spray the fire hose before they were given a ride back to the school in the fire trucks.

Kennebec Telephone Company is proud of our employees who volunteer for the fire departments! Thank you for your service.

Caleb Gerard takes a turn with the firehose!

Rod Bowar with kids waiting for their turn to ride in a fire truck!

Colby Gerard tries out the fire hose, with some guidance from Kennebec Volunteer firefighter, and Powercom electrician, Jake Longville.

Kennebec Volunteer Fire Department Cadets Gunner Johnson and Easton Robbins

Presho Fire Chief, Ryan Husman and Kennebec Fire Chief Rod Bowar, demonstrating some fire fighting equipment for the Kindergarten class.

LHS sophomore, Easton Robbins, a cadet firefighter with Kennebec Volunteer Fire Department, suited up to demonstrate turnout gear to the youngsters.
